

Name: \_\_\_\_\_

Class: \_\_\_\_\_

Date: \_\_\_\_\_

Name the following molecules using IUPAC nomenclature:

- Question 1: methanoic acid
- Question 2: 2-ethyl-2,3-dimethylbutanamide
- Question 3: 2,3-dimethylhexanoic acid
- Question 4: 4,5-dimethylhexanoic acid
- Question 5: 3,3-dimethylbutanoic acid
- Question 6: 2,2,4-trimethylpentanoic acid
- Question 7: hexanamide
- Question 8: 4-ethylhexanoic acid
- Question 9: 2,3-dimethylpentanoic acid
- Question 10: 5-methyl-1-hexanamine
- Question 11: 2-ethylbutyl ethanoate
- Question 12: 2-hexanamine
- Question 13: 3-ethylpentanamide
- Question 14: butanoic acid
- Question 15: propyl methanoate
- Question 16: 3,3-dimethylpentyl methanoate
- Question 17: 2,2-dimethylhexanoic acid
- Question 18: ethyl ethanoate
- Question 19: 3,4-dimethyl-1-pentanamine
- Question 20: 2,3-dimethylbutanoic acid
- Question 21: N-ethyl-N-methyl-2,2-dimethylpropanamide
- Question 22: 3,4,4-trimethylpentanoic acid
- Question 23: butyl methanoate
- Question 24: 2,2,4-trimethylpentanamide
- Question 25: propyl-3-methyl butanoate
