

Name: _____

Class: _____

Date: _____

Name the following molecules using IUPAC nomenclature:

- Question 1: 2-octanamine
- Question 2: methyl hexanoate
- Question 3: 3-methylpentanoic acid
- Question 4: N,N-dimethyl-2,3-dimethyl-2-butanamine
- Question 5: 2-ethyl-2-methyl-1-pentanamine
- Question 6: pentanoic acid
- Question 7: 4,4-dimethylpentanoic acid
- Question 8: N-ethyl-2-methylpropanamide
- Question 9: N-ethyl-N-propylethanamide
- Question 10: ethyl 4-methylpentanoate
- Question 11: N-propylpropanamide
- Question 12: N-methyl-2,3-dimethylpentanamide
- Question 13: 4-methyl-2-hexanamine
- Question 14: pentyl ethanoate
- Question 15: N,N-diethyl-2-butanamine
- Question 16: 4-methyl-1-pentanamine
- Question 17: N,N-dimethyl-2-pentanamine
- Question 18: N-propyl-2-methylpropanamide
- Question 19: methyl 2-methylhexanoate
- Question 20: 3-methyl-4-heptanamine
- Question 21: 2-methyl-2-hexanamine
- Question 22: 2-ethyl-2,3-dimethyl-1-butanamine
- Question 23: N-propyl-3-methylbutanamide
- Question 24: 3,3-dimethylpentyl methanoate
- Question 25: N,N-diethylethanamide
