

Name: _____

Class: _____

Date: _____

Name the following molecules using IUPAC nomenclature:

- Question 1: N-methyl-3-ethylpentanamide
- Question 2: methyl 2,3-dimethylpentanoate
- Question 3: 3,3-dimethyl-1-butene
- Question 4: 4,4-dimethyl-1-hexyne
- Question 5: 2,2,3-trimethylbutane
- Question 6: 2-ethyl-1-methoxypentane
- Question 7: 2-ethyl-3-methylbutanoic acid
- Question 8: p-methylphenol
- Question 9: 3-methyl-2-hexanol
- Question 10: 4-methyl-1-octyne
- Question 11: m-methyltoluene
- Question 12: m-chloroethylbenzene
- Question 13: o-ethylpropylbenzene
- Question 14: 3-methoxy-2,4-dimethylpentane
- Question 15: 2,4-dimethylhexanoic acid
- Question 16: ethyl 3,3-dimethylbutanoate
- Question 17: 2-methyl-1-pentanol
- Question 18: 3-methyl-2-pentanone
- Question 19: ethylbenzene
- Question 20: 3,3-dimethylbutyl methanoate
- Question 21: 3-methyl-2-pentene
- Question 22: 2-butene
- Question 23: 5-methylhexyl methanoate
- Question 24: 3,3-dimethylpentanamide
- Question 25: 1-octene
