

Name: \_\_\_\_\_

Class: \_\_\_\_\_

Date: \_\_\_\_\_

Name the following molecules using IUPAC nomenclature:

- Question 1: methanol
- Question 2: N-methyl-2-methylhexanamide
- Question 3: 3,3,4-trimethylpentanal
- Question 4: 2-propanol
- Question 5: butyl methanoate
- Question 6: 2-ethyl-2-methylpentanoic acid
- Question 7: 3,5-dimethylheptane
- Question 8: N-methyl-2,2-dimethylpentanamide
- Question 9: 3,3-dimethylhexanoic acid
- Question 10: methyl pentanoate
- Question 11: 2-ethoxy-2-methylbutane
- Question 12: nonane
- Question 13: 4-methoxyheptane
- Question 14: 4-methylpentanoic acid
- Question 15: 2,2-dimethylpropanal
- Question 16: 2,2-dimethylpentanamide
- Question 17: 2,2-dimethyl-3-pentanone
- Question 18: 4-methylheptanamide
- Question 19: 2-methyl-3-hexyne
- Question 20: 4,4-dimethylhexanoic acid
- Question 21: 2-phenylpentane
- Question 22: 3-ethyl-4-methylpentanoic acid
- Question 23: 2-ethoxy-2-methylpropane
- Question 24: 3-methyloctane
- Question 25: 2-pentanol
